### MINOTTI WEBSITE

The Minotti website makes searches simple, guiding the visitor on a discovery tour of the brand.
It is a must-have work tool for the partners but also an invaluable channel of information for anyone who wants to be permanently "tuned in" to the company.

VISIT THE WEBSITE

### HISTORIC TRADEMARK

Minotti is included into the Special Register of Historic Trademarks of National Interest, established by the Italian Ministry of Economic Development (MISE), to enhance the Made in Italy excellences which have been registered for at least fifty years.

WATCH THE VIDEO

### COMPANY SHOWROOM

The company showroom welcomes customers from all over the world, as well as hosting training sessions, photo shoots, events and important meetings. A space designed in 2012 capturing the essence and identity of the brand, the most authentic expression of the Minotti style.

WATCH THE VIDEO

Minotti is an Italian company with a solid reputation at an international level as an excellent expression of Made in Italy in the field of contemporary furniture design and ambassador of a classic-modern lifestyle in the residential and hospitality segments.

The company was established in 1948 from the intuition of Alberto Minotti. The small scale artisan workshop grew quickly and, starting from the Sixties, became more industrialized in character and size. The next step was taken by Renato and Roberto Minotti, who, after the premature death of their father in 1991, took over the reins of the company and began a process of growth and expansion into the international markets. Responsible for the corporate strategy, since 1998 they have shared their creative vision and aesthetic key-principles with the architect Rodolfo Dordoni, who has been assigned the strategic role of Art Director and coordinator of all the company collections.

Central to the Minotti identity is the full expression of the Made in Italy concept, which today permanently melds tradition and innovation: the skills of talented artisan are employed to finish a product created by modern technologies, while the intelligence of the hands balances industrial precision with sensitivity and emotion. This high degree of know-how is constantly improved by the intensive research on materials and technological solutions thus enhancing the value of impeccable details.

The commitment to excellence involves all the company. A story of Italian excellence also been shared by the third generation: in the forefront, Alessio, Alessandro, Susanna and Leonardo who are facing the challenges of the third millennium, of the digital and multicultural world. Over the years the company has conceived a specific "Minotti code", that has become a constant feature of every collection, always following the key principle of "innovation in the spirit of continuity".

# INDOOR

The Minotti Collection reflects the changes in the way we define the home environment and interprets a new approach to home décor. Every year, Minotti debuts an entire new collection that includes seating systems, armchairs, tables, chairs and complementary pieces. Each detail contributes to the creation of a brand experience and the new collection is inspired by a mood, informed by the atmosphere conveyed through the contextualization of the products in sophisticated architectural milieus, on the creation of unique backdrops, on the quest for original combinations of materials and colors, and on styling.

# OUTDOOR

Through the Outdoor Collection, the sophisticated elegance and unrivaled comfort that distinguish the interior design products are expanded to include the outdoors thanks to an impassioned quest for the right materials, carefully selected to resist wear and weather.

Minotti delivers the tools to create new design projects for contemporary living. A vast array of seating elements and accessories with a strong aesthetic identity, elegant proportions and unrivaled comfort allow for seamless style transitions between indoors and out.

# HOSPITALITY

The globalization has significantly increased the number of people travelling both for business and for pleasure. It was from this cosmopolitan community – travellers who like to feel at home anywhere in the world – that Minotti took inspiration for its own hospitality project. Keeping to its strong identity, the company has developed a concept that combines comfort and elegance, while offering a range of products designed to meet several requirements: from lobby and lounge spaces to bar and restaurants, including luxury apartments. The Minotti Hospitality Project was therefore conceived to offer new design perspectives.

# STUDIO COLLECTION

The Minotti Collection is so rich and varied that it easily adapts to the world of workspaces, elegantly interpreting professional environment. This new direction taken by the brand, destined to be further developed in the future, is inaugurated by the furnishing elements designed by Marcio Kogan / studio mk27.

Meeting tables, desks and seats have been created in response to the evolution of today's working environments, offering a new range to cater for multifunctional meeting areas and hybrid solutions, also designed to complement elegant study environments in residential settings.

## FLAGSHIP STORES NETWORK

Minotti's international vision has resulted in a widespread worldwide, through a network of 52 flagship stores in 30 countries, where people can fully experience the international refined lifestyle of the Italian company.

WATCH THE VIDEO

# A GLOBAL BRAND EXPANSION WITH 52 FLAGSHIP STORES IN 30 COUNTRIES

The monobrand showrooms are display spaces that completely and effectively convey the language of the brand, showcasing the variety and opulence of the collections in sophisticated architectural settings where everything works together to create a truly authentic brand experience. The materials used in the staging and the careful selection of the furnishing pieces and lighting elements all conspire to create display areas of the highest quality.
The network of flagship stores is constantly expanding with future openings set in various cities around the world. Minotti flagship stores are managed with skilled local partners who offers guidance in managing the business in terms of strategy through the presentation of the product concept, with the design of the spaces and staging of the customer experience.

Partners are a major asset: qualify professionals, with the kind of determination and passion necessary to support the exciting and complex mission of the brand to spread Made in Italy excellence throughout the world.

The Minotti Collection is multifaceted, born from a project open to contributors with design philosophies rooted in various cultural backgrounds. A collection that keeps intact the values so dear to the brand, of elegance of forms, of sobriety in design and of continuity in the tradition inherent to our DNA, but open to the solicitations coming from different cultures. Entirely coordinated by Rodolfo Dordoni, as a sign of continuity, it welcomes the stylistic input of international designers. From Italy, Dordoni himself reaffirms his unmistakable style linked to the principles of both rationalism and interior decoration, with references to the world of contemporary art. From Japan, Nendo brings us his light graphic tone, with the subtle poetry that runs through his designs, the attention to volumes, thicknesses and unexpected details that invite us to discover his creations closely. From France, Christophe Delcourt reconnects us with the affection of French culture for decoration, surfaces worked with artisanal savoir-faire and fine cabinet making, combined with high-end technologies. From Brazil, Marcio Kogan conveys us his architectural approach to his designs, borrowing elements and materials from the worlds of nature and yachting, abolishing the boundaries between inside and outside. From Italy and Denmark, GamFratesi model their creative intuitions into designs that draw from both the classic decor and artisan tradition of Denmark and Italian intellectual and conceptual approach. A tried and tested melting pot of styles, expressed in furniture and objects, with a silent elegance, in the production techniques used and in the meticulous attention to detail. From Japan and Denmark, Inoda+Sveje's design is characterised by a harmonious approach and incredible attention to shapes and proportions: the duo takes inspiration from the world of nature, which is expressed in the sophisticated details of its projects, in the soft lines and precious joints of cabinet making.

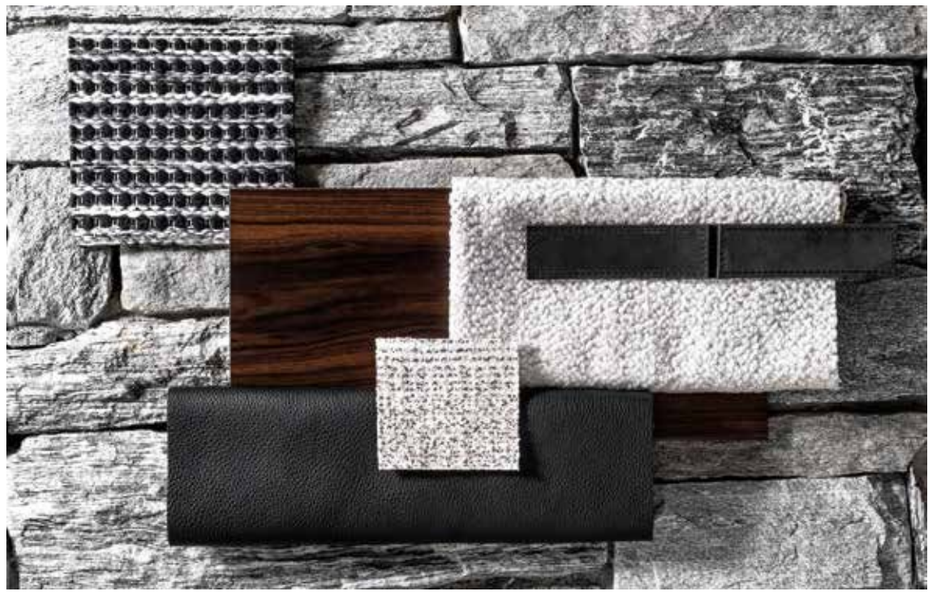
# THE WORLD OF MATERIALS



The incomparable Minotti lifestyle is interpreted not only through the broad range of products imbued with timeless design, unparalleled comfort, and reliability, but also through the ability to conceptualize decor solutions with a contemporary flair appreciated around the world. An extensive selection of fabrics, leather and materials make up the exclusive collection that allows our partners to create highly-customized interior design projects, thanks to the valuable set of tools at their disposal.

"The World of Materials" showcases the company's ability to craft contemporary interior design that is admired worldwide. The accent is on the quality of the decor and the many tools available to clients and design professionals who are able to offer a truly customized interior design service by partnering with Minotti in bringing the unique and sumptuous textile collections, leather and materials to their designs. Minotti's research is never ending, both within Minotti Studio and in collaboration with the entire production chain. In conjunction with the launch of new products, a new textile collection is also presented and exclusively produced for the company by specialized suppliers. This challenging teamwork, allows Minotti to offer a range of extremely well-crafted unique fabrics.The roots of the company lay in upholstery, the art of making sofas.
Made in Italy brands, that were born from this specific mastery, differ from other furniture brands due to the fact that they can count on a long history of designing fabric and on a deep knowledge of its manufacturing techniques.
The ability to interpret different materials – treated with the same dignity and passion as the projects they will be part of – allows the company to really make the difference.

Register on the website **minotti.com** to access and to consult **The World of Materials** reserved area.

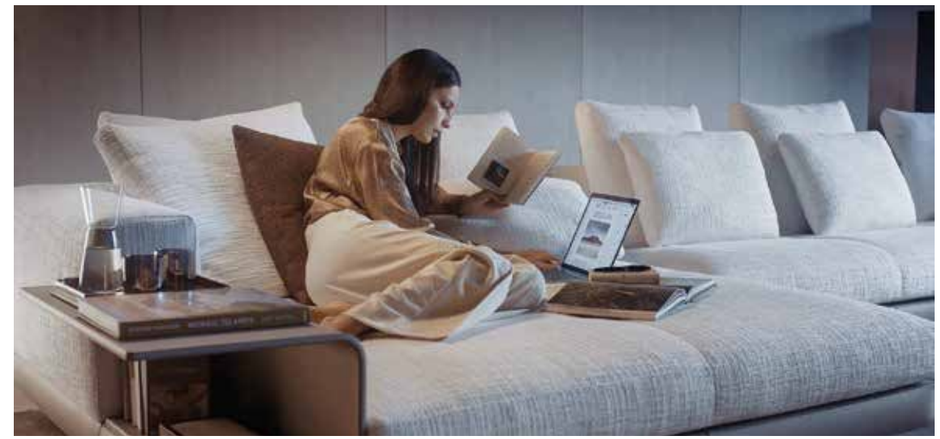
## MINOTTI PAVILION

The pavilion created by Minotti for the sixtieth anniversary of Salone del Mobile.Milano migrates to a virtual, universal and immersive location: a "non-place", a city, anywhere in the world. This is the story of the film "Minotti Pavilion", narrating a new way of being a brand. The film expresses Minotti's ability to navigate between the virtual and the real: building the architecture of living, not just furnishing it. Walking in an ideal place, we discover a space that integrates perfectly into the metropolitan setting: it is the trace of the maison in the world that becomes Architecture.

## WATERROCK

Minotti's hospitality vision is evolving in terms of its design and stylistic language, giving shape, as every year, to a new and exclusive virtual project. "Waterrock Boutique Hotel and Villas" interprets the current trends of contemporary living in the residential and hospitality sectors. The project is ideally located in a natural Mediterranean setting, lying on a coastal hilly area offering panoramic sea views; a fascinating location designed to act as a new backdrop and maximize the dialogue between indoor and outdoor spaces and between furnishing pieces and architecture.

## PORTRAITS OF LIVING



Our seating systems are the protagonists of an exciting journey through endless moments of pleasure.
Tales of everyday life that focus on the real protagonist of the home, the sofa: our Connery, Daniels, Freeman, Lawrence and West, reveal moments of intimacy and good times savored with friends and family, where people, gestures and emotions offer a stimulating take on a glimpse of daily life. A story with an introspective dimension designed to capture the moods and translate the deep emotions that come to life in the domestic universe.

## INTERIORS ALL OVER THE WORLD

The "Interiors all over the world" video shows a different perspective on Minotti collection, through an exclusive selection of images that depict various project in public and private places around the world.
Styles and environments quite different from one another demonstrate just how comfortable each of these elements can be in any setting. The video testimonies Minotti's commitment to spreading a passion for Italian style, a unique combination of quality, craftsmanship and industrial design, around the globe.
